

TUNE IN:

Be in the moment.
Take note of what
your child is focused
on right now or what
they are telling you.

TAKE TURNS:

Keep the
conversation going
and your child
engaged. If they
switch topics, follow
their lead!

TALK MORE:

Start a conversation
about the topic and
use a variety of
words to describe it,
like colors, shapes
sizes, places!

Research shows children do better in school when their parents talk and interact with them from birth. Build your child's brain anytime, anywhere using the 3Ts! Learn how at the3Ts.org or las3Cs.org.
